Fire Rescue Victoria Firefighters

Each day when firefighters get to work, they put on their station uniforms. Fire Rescue Victoria (FRV) firefighters wear a dark grey shirt and trousers or shorts. They also have a dark blue jacket. On the shirt and jacket there is the FRV crest. Each firefighter wears a name badge.

When firefighters receive an emergency call they put on their turnout uniforms. FRV firefighters wear gold trousers with red braces and a gold tunic. They wear strong black boots. A helmet with face mask protects the head and gloves protect their hands. They carry a personal radio and torch. Every firefighter must use a breathing apparatus near smoke and fire. All this clothing and equipment helps to keep firefighters safe at a fire or other emergency.

UNIT 1 – YOUR FIRE SERVICE

The Firefighters' Busy Day

The firefighters began their shift at 8:00am. Their first emergency call for the day was to a house fire. A young lady had been drying clothes too close to a heater and they had caught fire. There was a working smoke alarm in the house. The lady had heard the alarm 'beep, beep, beep' and escaped from the fire with her baby. She phoned 000 (triple zero). The firefighters arrived quickly and put out the fire with a hose reel. The lounge room was badly damaged.

The firefighters' next call was to the home of a 75 year old lady who had collapsed. She was unconscious and not breathing. Her husband was very worried. He had phoned 000 (triple zero). An ambulance was sent and so was the fire truck. The firefighters were nearby and arrived first. They spoke to the man whose name was Peter. He said his wife's name was Yvonne. The firefighters quickly treated Yvonne. She was not breathing and had no pulse. Ambulance paramedics soon arrived. They also treated Yvonne. She was taken to hospital in the ambulance.

The third emergency was a car accident. A young driver had hit a pole and was trapped in his wrecked car. He had been texting on his mobile phone. The firefighters forced open the car door with a special tool and rescued the driver. The ambulance paramedics took the driver to hospital. The tow truck took the damaged car away.
