#### **DISCUSSION**

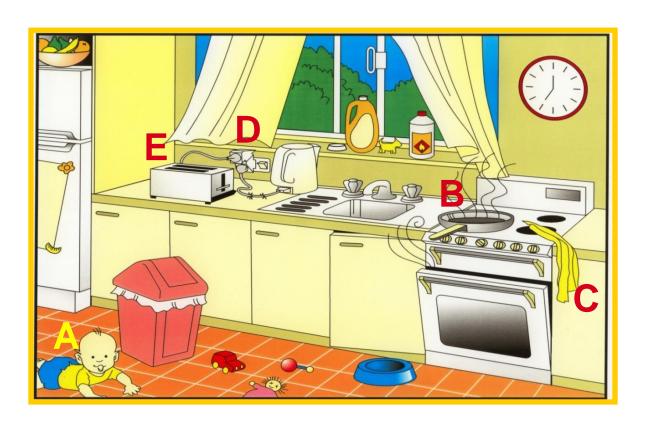

- 1. Look at the photo and answer the questions.
  - a. What can you see in this picture?
  - b. What is the adult doing?
  - c. How do you think the fire started?
  - d. What would you do in this situation?
  - e. How could this fire have been prevented?
- 2. Discuss with a partner.
- 3. Discuss as a class.

#### FIND THE DANGERS

You can prevent a fire from happening in your home by making sure all the rooms in your home are fire safe.

Match the dangers (A–E) with the sentences. The first one is done for you.

C	The cloth is too close to the stove. It could catch on fire.
	The handle of the pot is not turned inwards. It could be knocked off the stove.
	There is a child in the kitchen and no adult is watching the cooking.
	The power point is overloaded with too many plugs.
	The toaster is too close to the curtains. They could catch on fire.

### **MATCH WORDS AND PICTURES**

These instructions are about fire safety in your home. Match each instruction with the correct picture. The first one is done for you.

Extinguish cigarettes

 in heavy, high-sided
 ashtrays.

- Clothes and other items must be kept at least 1 metre away from heating.
- 4. Stay in the kitchen when you are cooking on the stove.

- Never overload power points or power boards
- Charge items on surfaces that do not burn and unplug as soon as they are charged.

## **CLOZE ACTIVITY**

Complete the sentences with words from the box.

	kitchen overload	<u> </u>	supervised safe	metre
1		cigarettes	s in heavy, high-sided	ashtrays.
2	. Clothes and o from heating.	ther items must be ke	ept at least 1	away
3	. Stay in the	when	you are cooking on th	ne stove.
4	. Never	power p	points or power boards	S
5	. Charge items they are		ot burn and unplug as	s soon as
6		sher and fire blanket s	should be in every kito	chen. Only
7	. Children shou	ld be	near heater	s and fires.

## **DEFINITIONS**

Match the words and the meanings.

radiant electricity	combust prevent	flammable fire blanket	extinguish observe
		type of heat	
		to stop something before	e it starts
		watch carefully	
		to start burning	
		to put out a fire	
		used to smother a fire	
		a form of power	
		can catch fire easily	

#### **KEEPING CHILDREN FIRE SAFE**

Read the following text and highlight the correct word.

Many fire emergencies **are / is** caused by young people. Younger **child / children** tend to light fires **in / on** and around their homes. They rarely intend to **cause / because** damage with fire.

You should explain to children **that / this** fire is a tool and **not / with** a toy. Teach them **about / above** fire safety and consequences **of / with** fire.

#### Read the sentences below and circle True or False.

a. Fire emergencies can result from children playing with matches.

True False

b. Fires caused by younger children are often near their homes. True False

c. Children usually intend to cause damage with fire.

True False

d. Never teach your children about fire safety.

True False

### **KEEPING CHILDREN FIRE SAFE**

Cut out the sentences. Sort the sentences into 'Always' and 'Never.

Always		Never
	•	
leave children or babies alone in the kitchen.		
leave matches or cigarettes lighters where children can reach them.		
put a screen in front of an open	fire.	
leave small children alone near a fire or radiator.		
explain to children that fire is a tool not a toy.		
teach children about fire safety.		

plan a Safe Meeting Place for your home with your children.

# Matches Are Tools, Not Toys!

Yesterday Angela Tan and her four young children went to the supermarket. Angela had invited friends over for a barbeque on the weekend, so Angela bought a box of matches to light the barbeque.

After shopping Angela put the shopping bags on the kitchen floor. She was unpacking the bags when the home phone rang. While Angela chatted to her mum, her three-year-old daughter Mia looked for lollies in the shopping bags.

Suddenly Angela heard Mia screaming. She then heard the smoke alarm in the passage beeping. She dropped the phone and ran to the kitchen. The tablecloth was on fire. The flame was spreading very quickly and it started to burn the edge of the curtain.

Kim, the eldest daughter, ran next door and told the neighbours that her house was on fire.

Rick Thomas, the neighbour, dashed next door. He grabbed a garden hose from the front yard and turned on the tap. He rushed through the door and sprayed the water on the fire. He told the girls to get out of the house.

Rick's teenage daughter, Kerry, phoned 000 (Triple Zero) on her mobile phone. She asked for the fire brigade and said the Tan's address. The firefighters arrived in five minutes. Rick had managed to put the fire out with the water.

It was a happy ending even though Mia was frightened and had slightly burnt her finger. The Tan's were lucky that only the tablecloth and a curtain had been destroyed.

Two weeks later the Tans invited Rick and his family in for a barbeque to thank them.

The Tans learnt a few lessons from this experience. Angela learnt not to leave matches near her children and the daughters learnt not to play with matches.

### **COMPREHENSION**

	Read ' <i>Matches Are Tools, Not</i> e sentences.	Toys. Write the correct names to complete		
	a is the next door neighbour.			
	b is the three year of c. Mrs Tan's name is			
	d is the Tan's eldes			
	e is Rick's tee	nage daughter.		
2.	Match the person with their ac	etions.		
	a. Angela Tan	invited Rick and his family for a barbeque		
	b. Mia Tan	grabbed the garden hose		
	c. Kim Tan	phoned 000 (triple zero)		
	d. Rick Thomas	played with matches		
	e. Kerry Thomas	ran next door		
	f. The Tans	bought matches		
3.	Number the events in the orde	er they occurred in the story.		
	The firefighters arrived.			
	_1_ Angela and her children went to the supermarket.			
	Mia played with matches and started the fire.			
	Rick put out the fire.			
	Angela left the shopping bags on the floor.			

\_\_\_\_ Kerry phone 000 (triple zero) on her mobile phone.

\_\_\_ Rick ran and picked up the garden hose.

\_\_\_ Angela answered the home phone.

## **Summer Fire Safety**

Victoria is one of the most bushfire prone places in the world.

In summer when fire danger is high we must all obey the fire restrictions to reduce the chance of a fire occurring.

The Fire Danger Period is when the Country Fire Authority (CFA) restricts the use of fire in the community. CFA declares the Fire Danger Period for each municipality (shire or council) in the lead up to the fire season. The exact dates depend on the amount of rain and other local conditions but typically is from November to April.

During the Fire Danger Period you can have a barbeque and light a campfire for cooking or warmth but only if the fire is in a safe place, it is never left unattended and there is water available to put it out in an emergency.

The rules about fire restrictions are very complex.

Total Fire Ban days are declared by CFA on days when fires are likely to spread rapidly and be difficult to control. You need to know what you can and can't do on Total Fire Ban days.

### Read 'Summer Fire Safety'. Highlight True or False.

a. The Fire Danger Period in Victoria is usually November to April

	True	False
b. Fire danger is highest in winter and spring	True	False
c. It is best to keep water nearby when you have a campfire	True	False
d. Total Fire Ban means you can light a fire outdoors	True	False
e. Victoria's fire restrictions are very simple	True	False

#### SUMMER FIRE SAFETY

Read the following information and highlight the correct word.

#### **TOTAL FIRE BAN**

**CFA / FRV** declares Total Fire Ban days when there is an extremely **high / hard** danger of **flames / fires** in the bush or grassland. On these days fire could develop **rapidly / radiantly** and be extremely **dirty / difficult** to control.

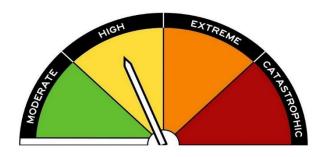

On these days it is best not to travel into **high / night** risk areas with **forest / farm** or bush land. When you go on **holiday / highly** you need to know which Total Fire Ban District you are in.

## **FIRE DANGER RATING**

The Fire Danger Rating predicts how a fire would behave if one **started / stopped**, including how difficult it would be to put out. Days of Catastrophic fire risk have the **worst / widest** conditions for a bush or grass fire.
