

FES offers a specialised recycling program for the safe and environmentally responsible disposal of extinguishers up to max. 9kg - (*fees apply*).

Note: **Halon** extinguishers (**yellow**) are treated differently due to their ozone properties as they cannot be recycled like standard extinguishers. FES is licensed by the National Halon Bank to collect halon (also known as 'BCF' type), which we are to collect free of charge.

Dry Powder

CO2

Stored Pressure
Water

Wet Chemical

Halon (BCF)

Foam
(AFFF/ATC)
